01

Microcrystalline magnetic resonance

Technology 1: Germany advanced Microcrystalline Magnetic Resonance

Microcrystalline Magnetic Resonance

1. Exclusive waveform frequency to generate **endogenous heat**.
2. It is easier for the human body to **absorb and accept**.
3. Stable resonance **warms up** the internal organs.
4. Achieve the effect of internal organ **dehumidification and detoxification**.

Technology 2: Far Infrared Heating Magnets

1. Heating magnetic, wavelength in 700-1300um
2. Penetrates 35mm subcutaneously
3. Obvious effect on the internal organs & dampness

**Massage heat
far infrared
energy strap**

**Massage
heat, far
infrared,
energy belt**

**Built-in UV
rays
Sterilization
function**

Warm Therapy: Drains moisture, activates meridian qi and blood, and soothes soreness

Activates qi and blood

Unclog the meridians

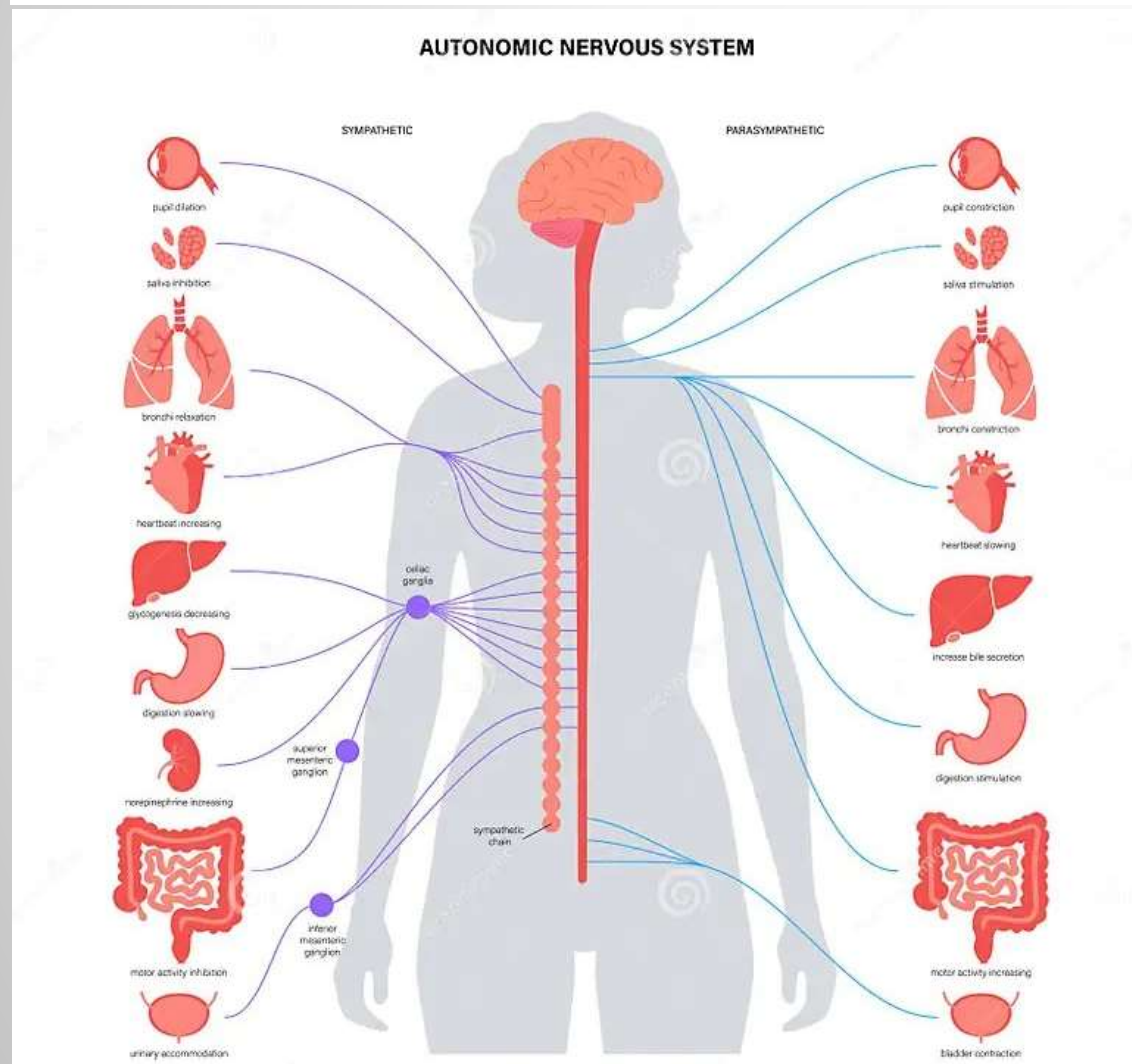

Sore shoulder

Visceral regulate

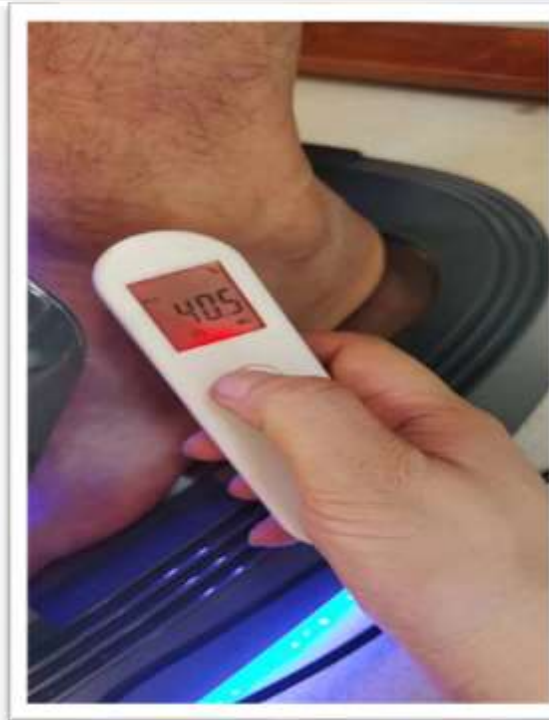

Warm Therapy: Balances the sympathetic nerves of the autonomic nervous system

1. Regulates autonomic nervous system **balance**
2. Relieves stress and anxiety
3. Improves **sleep quality**
4. Reduces **cardiovascular load**
5. Promotes **recovery and restoration**

In use

The body is heated from the inside out
